

New York sees highest single-day increase in deaths, hospitalizations

ABC News

Subtitle

Supplies, **PPE** are in short supply as they are across the country.

We need companies to make **materials**

It is unbelievable to me that in New York state, in the united states of America, we can't make these materials.

And that we are all shopping china to try to get these materials.

And we are all **competing** against each other.

These are not **complex** materials.

And we will work with New York **manufacturers**.

We will finance the **transition** necessary to make these materials.

And when we talked about them as if they are really **complicated**.

This is an **N-95 mask**.

This is it.

It was \$0.79 before this started. It's now as high as \$7.

But this is all that N-95 mask is.

Ah, its fabric. Its material.

The FTA has the **specifications** and then it's two pieces of **elastic** cords.

It can't be that we can't make these

This is a **gown**. We call them gowns.

This is a gown.

It's ahh

There's nothing sophisticated about manufacture of this **garment**.

Not that the grade of the **garment** (???, I couldn't catch it)

It's nothing **sophisticated** about the material

It can't be that companies in this country and in this state can't transition to make those supplies quickly

Again I understand that there's a financial burden, we will **address** that and we will work with you.

So please contact us.
